

Ophthalmic Consultants of Rockland

222 Route 59 Suite 207

Suffern, NY 10901

Patient Name:

DOB:

REFRACTION FEE \$50.00

You may be charged an additional refraction fee at the conclusion of your examination for REFRACTION.

Refraction is the optical determination of the best correctable vision. It is used to determine prescription for eyeglasses and/or contact lenses.

Many insurance companies, including Medicare, consider refraction not “medically” necessary and do not provide payment for service.

Many plans want you to use a vision benefit provider.

If you have Medicaid or a Managed Care Medicaid Plan you agree to pay for this service, if rendered.

You are responsible to know your benefits.

If your insurance does reimburse us, you will promptly be reimbursed by us.

Thank you.
